## AMIT N. THAKKER

CHAIRMAN - AFRICA HEALTHCARE FEDERATION, KENYA

### TOP QUOTE FROM BLOG:

#### Healthcare revolution in Africa through public-private partnerships.

“A successful investment is not defined solely by financial input, but also by additional critical factors such as collaborations, robust frameworks and policies, scalable economies, targeted opportunities for development, and

effective resources, that would bring it to fruition. Public, private and development partner cooperation is required for solutions surpassing borders, that will drive the investments into sustainable health outcomes, maximise the returns on those investments, and in turn create a stronger African health sector. “

## ANGELA MAAS

PROFESSOR CARDIOLOGY FOR WOMEN, RADBOD UMC, NIJMEGEN, NETHERLANDS. GYNECARDIOLOGIST & CARDIOFEMINIST. INITIATOR RADBODUMC FUND HEARTFORWOMEN, THE NETHERLANDS

### TOP QUOTE FROM BLOG:

#### Why I'm a Cardiofeminist.

“In the Netherlands around 75 percent of medical students are women, but what we hear from the female students here and in other countries is that the atmosphere that cardiology departments have, the macho behaviour that is still hanging around, meaning that they don't want to work there for the rest of their lives. Women still have to be fighters to get in and to survive, and it is not very easy for women to persist in a career in cardiology.” See more at: <https://iii.hm/g9f>

## LORI FONTAINE

GLOBAL VICE PRESIDENT OF CLINICAL AFFAIRS, HOLOGIC, U.S.

### TOP QUOTE FROM BLOG:

#### Reinventing breast tomosynthesis.

“As a woman who participates in breast cancer screening and is passionate about ensuring women have access to the best technology available, I know first-hand how important it is to develop equipment that factors in insights from both radiologists and patients to improve the experience. These insight-driven advancements in technology must be supported by strong clinical evidence, and I look forward to continuing the work on the next innovations that aim to do just that.”

## MAGED N. KAMEL BOULOS

HEALTH INFORMATICS AND SCIENTIST, PROFESSOR OF DIGITAL HEALTH - ALEXANDER GRAHAM BELL CENTRE OF DIGITAL HEALTH, UNIVERSITY OF THE HIGHLANDS AND ISLANDS, UK

### TOP QUOTE FROM BLOG:

#### How can the Internet of Things and people help improve our health, wellbeing and quality of life?

“While research was successful at documenting and highlighting the risks associated with IoT deployments in health and care, the industry has somewhat failed to follow and tackle those issues, focusing more on rapid profit generation and usability (user convenience). Device and service security and user privacy are often addressed as an afterthought, if at all. “See more at: <https://iii.hm/g9e>
