

Hologic Innovation Workshop: Breast Biopsy

INNOVATION WORKSHOP

Breast Biopsy: Hologic 3D Mammography™

Speaker: Kathleen Lott

Room: 2.82 - lower level, ECR 2016

Hologic is offering a series of 45-minute educational sessions for radiologists. A brief lecture will provide an overview of the clinical experiences with vacuum breast biopsies guided by 3D Imaging, prior to a demonstration of a phantom procedure using live imaging supervised by radiation protection services.

This program is intended for radiologists interested in learning more about interventional breast biopsies guided by 3D imaging.
